

PRO

HYBRID PRO

2-in-1 DESIGN

This 2-in-1 interchangeable design features both an elastic headband and adjustable temples in length & inclination, which can be interchanged to suit various needs.

ADVANCED AIRFLOW SYSTEM

Built with indirect air vents that enhance airflow for effortless breathing and fog prevention without compromising protection.

ULTRASHIELD COATING

The top-tier UltraShield coating makes these lenses 5X more fog-resistant and 2X more scratch-resistant than your average pair. That means clearer vision and long-lasting protection no matter the job.

ANSI Z87.1 RATED
